1. Graduation Requirements. The state graduation requirements total 24 credits. See Charts V (A) through V (D), contained in West Virginia Board of Education Policy 2510 for specific credits required for graduation.

1.1 The courses needed for graduation, indicated in Charts V (A) through V (D) require mastery of the West Virginia Board of Education and county board of education approved content standards and objectives. The level of mastery shall be determined in compliance with West Virginia Board of Education Policy 2515 and with West Virginia Board of Education Policies 2520.1 through 2520.17, 21<sup>st</sup> Century Content Standards and Objectives for West Virginia Schools (hereinafter CSOs).

Courses approved through the West Virginia Virtual School approval process may be exempt from this requirement. The Board and South Branch vocational centers may, in order to accommodate transportation times for students, schedule courses for credit with fewer than 8100 minutes of instructional time provided the center documents student mastery of the content standards for those courses.

1.4 Additional courses not identified in Chart VI of West Virginia Board of Education Policy 2510 may be offered to afford students the opportunity to attain mastery of the content standards and objectives, to broaden and enrich their education, and to support academic and career development. Any elective offering must be based on West Virginia Board of Education approved content standards and objectives if available or based on written content standards and objectives that are approved by the Board.

1.5 Any student who successfully completes a high school level course (one meeting the high school approved content standards and objectives and taught by a content certified teacher) prior to grade 9 shall receive full credit for that course toward graduation requirements. The student's permanent record for grades 9-12 shall indicate completion of the

courses. The grade for any course taken prior to grade 9 becomes part of the student's permanent record and is calculated in the student's grade point average (hereinafter GPA).

1.6 All students will receive appropriate grades and/or credit for all work completed while attending school, regardless of the duration of their enrollment period.

1.7 High School Diploma. The Board shall award a high school diploma to every student who has completed the standard graduation requirements.
