

TITLE: Energy Conservation
State Board of Education Ref: 6100; 2320

The Gilmer County Board of Education feels strongly that there is a need to conserve energy, and operate the county school system in the most energy efficient manner possible.

To achieve that end, an employee is assigned responsibility to monitor energy consumption and assist others with conservation.

The energy coordinator will develop plans for implementing procedures to monitor energy consumption, encourage energy conservation and provide energy awareness.
